Community Programs

Baylor University Medical Center has four programs aimed at helping patients and their physicians to better manage chronic disease.

Asthma Management Program (pediatric and adult)
 - integrates comprehensive asthma education and instruction in the use of asthma management equipment designed for home use.

Heart Failure Management Program
 - enables patients to receive certain intravenous drugs in the convenience of home and provides education to help them improve their lifestyle and reduce the risk of future hospitalizations.

Diabetes Management Program
 - combines member education with blood glucose self monitoring to help achieve better blood sugar control and lessen the chance for the complications of diabetes to develop.

Low Back Pain Disease Management Program
 - provides access to educational materials to help prevent flare-ups of low back pain.
